

Environmental Policy

Procure has a strong commitment to serve. Our purpose in serving is to better the quality of life for our customers by improving the environment in which they live or work. The health and safety of our customers and employees and the protection of the environment is enhanced through the careful stewardship of Procure methods. Careful stewardship encompasses the following:

The Safe Use and Application of Products:

Procure chemical products will be transported and used safely. We will take a leadership position in understanding the health, safety and environmental effects of all products used. We will continually search for better methods and products, optimise their use levels and will only apply them as necessary in performing our services. All employees will be trained in the safe and proper use of the products used to provide the service.

Effective Disposal of Waste:

Procure is Committed in minimising the amount and assuring the proper and safe disposal of waste generated by the service. We will assume an active role in recycling our waste materials and providing services to our customers to do likewise.

Conservation of Nature:

Procure will conserve natural resources by utilising:

- Renewable resources
- Recycled materials
- Recyclable containers
- Energy conserving supplies
- Suppliers with similar principles.

Public Policy:

Procure will respond openly and promptly to concerns of inquiries relating to health, safety or environmental issues.
